

THE 49TH ANNUAL

Workshops in Clinical Hypnosis

Choose our Beginners Workshop or Our Refined Workshop

June 11-13, 2020

**ANNOUNCING NEW LOCATION FOR
WORKSHOP AND HOTEL LOCATION!**

WORKSHOP:

Amherst H. Wilder Center
451 Lexington Parkway North
St. Paul MN 55104

HOTEL:

St. Paul Hotel
350 Market St.
St. Paul, MN 55102

Provided by:

Minnesota Society of Clinical Hypnosis

"Very supportive network of multidisciplinary group of professionals. Practical skills and techniques for utilizing in my profession."

(MA/MS)

Level 1 Beginners Workshop Description

This workshop is for all practitioners who wish to begin ASCH Approved education in Clinical Hypnosis. It is designed **FOR ALL PARTICIPANTS NEW TO HYPNOSIS**.

Clinical hypnosis has been a valuable treatment modality and adjunct for hundreds of years and has been used as an efficacious intervention in medical, dental, and behavioral health care. Clinical hypnosis incorporates understanding of current concepts of neuroanatomy, neurophysiology, and neuroplasticity with effective patient relationship and communication skills. This effective and useful clinical strategy has been defined as a special state of mental functioning, the process to create that state, the experience of oneself in that special state, and all of the above.

Hypnotic trance has also been described as a state of focused attention, inner absorption, perceptual distortion, and openness to change. Clinical hypnosis is a powerful therapeutic intervention that draws upon the skill, adaptability, and creativity of clinicians.

The benefits of using clinical hypnosis in treatment situations include:

- Rapid establishment of rapport and the hypnotic relationship development and readiness to change stages.
- Facilitation of change, ego-strengthening, personal mastery, and reduction of impediments to change.
- Cost-effective, collaborative, person-centered treatment.
- Providing patients with life-long skills for better health.

The MSCH Level 1 training is an approved Level 1 training through ASCH (American Society of Clinical Hypnosis) and is the first of a series of training workshops that are a large part of the ASCH certification program in clinical hypnosis. ASCH approved workshops are taught by faculty with a wide range of healthcare experience in various disciplines who will demonstrate and teach workshop participants the concepts, principles, and processes of hypnosis. The workshop is comprised of a mix of didactic presentations, demonstrations, experiential exercises, and faculty led small group practice tailored to the specific needs, interests, and learning styles of workshop participants. At the successful completion of the workshop, participants will have been taught the knowledge and skills necessary to capably use clinical hypnosis and to begin to employ this strategy in their clinical practices. They will also be eligible for ASCH membership and included benefits as well as prepared to participate in intermediate (Level 2) and Advanced level ASCH or ASCH-approved workshops.

Upon completion of this workshop, participants will be able to do the following in their clinical practices:

- Identify and demonstrate at least three ways to facilitate hypnotic trance and to appropriately re-orient a patient from trance state.
- Demonstrate at least three strategies for facilitating intensification of trance.
- Describe at least four clinical conditions in which hypnotic strategies might be successfully utilized.

Refined Workshop Description

The Refined Workshop is for ANYONE who has completed an ASCH approved Level 1 Workshop. Our 2020 workshop features Dr. Michae Yapko. This is an inclusive workshop for anyone who has completed Level 1.

In this two-day workshop based on Dr. Yapko's recent book, *The Discriminating Therapist: Asking "How" Questions, Making Distinctions, and Finding Direction in Therapy*, we will look at people through the lens of cognitive style and HOW they make the choices they make. Instead of following the therapy tradition of analyzing *why* someone makes the choices they make, *The Discriminating Therapist* focuses on *how* people choose. We will especially focus on what they failed to either notice or discriminate in their global response to some circumstance. From this gentler perspective about people's problems, we can focus on the roles of missing skills or incorrect information relevant to making better decisions instead of simply pathologizing people. Hypnosis then becomes an invaluable tool for shifting the client's focus to what is relevant and effective while also mobilizing the resources necessary to make and implement good decisions. Through carefully constructed "how" questions that reveal the client's ineffective decision-making framework, the goals of therapy quickly become clearer and the likelihood of hitting well-defined therapy targets with well-structured hypnosis sessions increases.

ELIGIBILITY AND TARGET AUDIENCE

Doctoral Degree in Medicine, Dentistry, or Psychology; persons holding a Master's Degree in Social Work, Marriage and Family Counseling, or Clinical or Counseling Psychology who are licensed by the state/province in which they practice; a Registered Nurse with advanced sub-specialty training and certification or a Master's Degree; or a student actively enrolled in a graduate program leading to a degree in any of the foregoing. Master's level, licensed health professionals (e.g., Occupational and Physical Therapists, Speech and Language Pathologists, et. al.) are also welcome and encouraged to attend.

Advanced Workshop Requires Additional Eligibility:

This conference is ideal for health professionals who have had previous formal training in hypnosis. Participants should have previous experience in performing hypnotic inductions and facilitating hypnotic phenomena.

ACCREDITATION

Applications are being submitted for accreditation. This section will be updated as applications get accepted.

Outstanding content and great networking! Safe learning environment.

(PhD)

Good mix of didactic and experiential approaches with plenty of time for Q and A.

(MD)

NEW WORKSHOP LOCATION

Amherst H. Wilder Center
451 Lexington Parkway North
St. Paul MN 55104
www.wilder.org

NEW OVERNIGHT ACCOMMODATIONS

St. Paul Hotel
350 Market St.
St. Paul, MN 55102
800-292-9292

A limited block of sleeping rooms is available at the discounted rate of \$159.00 per night plus the current state and local taxes. Please make your reservations directly with the hotel by the cut-off date of **Thursday, May 14, 2020**, and request the **MSCH 2020** block to receive the discounted rate. Reservations will be accepted based on space and rate availability. Please use the following reservation link:

Guests can also go online to reserve by visiting:

<http://www.saintpaulhotel.com> select the arrival and departure dates and enter **200611MSC** as the group/block code to get the discounted rate.

COURSE MATERIALS

Registered attendees will be emailed access instructions to view the presentations and the course materials online prior to the Workshop; and download or print for their use at the conference. Please note: NO services for printing syllabi are available on-site during the conference. A printed syllabus will **NOT** be distributed at the Workshop. Presentations and other workshop materials will remain available on a designated website for several weeks following the Workshop.

REGISTRATION

Dietary restrictions should be indicated in advance; requests cannot always be honored on-site.

TO REGISTER

Online

To register online with Visa, MasterCard, or American Express for the:

Level 1 Beginners Workshop:

https://iplanit.swoogo.com/MSCH2020/register?reg_type_id=81645

Refined Workshop:

https://iplanit.swoogo.com/MSCH2020/register?reg_type_id=81646

In order to protect your credit card information, the Minnesota Society of Hypnosis (MSCH) does not accept credit card payments by phone, fax, or mail.

I can't imagine a better place to get training in hypnosis, especially for early learners. The time spent with the small groups helps people feel safe and to practice in a setting where they can feel like they are really turning themselves into very capable clinicians, in whatever field they might work. This is the best place to get training, hands down! (PsyD)

NEW LOCATIONS IN 2020!

The workshop will be held at the new location at the Amherst H. Wilder Center in St. Paul! Wilder has been committed to improving people's lives and well-being since 1906. Wilder has been able to accomplish this by drawing on the strengths of our community to solve problems together. We are excited to support them and to have our 2020 Workshop in their building!

The Saint Paul Hotel is regarded as one of the nation's premier hotels, a gem of our namesake city. From President John F. Kennedy to Charles Lindberg, The Hotel has hosted some of America's most defining figures in addition to thousands of leisure and business travelers.

Guests from around the country have come to know The Saint Paul Hotel's trademark style, sophistication and comfort. Whatever your need, The Saint Paul Hotel will meet it with grace, warmth and class. The Saint Paul Hotel is Minnesota's landmark hotel — luxurious, romantic, timeless — and one of the last of its kind.

Level 1 Beginners Workshop

Educational Objectives

Upon completion of this educational activity, learners should be better able to:

- List the stages of Hypnosis
- Describe hypnosis as a process of therapeutic communication
- Describe three elicitation methods
- Demonstrate three appropriate elicitation techniques
- Describe methods for deepening (intensification) of and re-orientating from hypnosis
- Outline applications for guided imagery
- Describe the use of hypnosis for pain control and stress reduction
- Outline a strategy for getting started using hypnosis in clinical practice

Preliminary Agenda

Curriculum and faculty are subject to change.

Thursday, June 11, 2020

5:00 pm	Registration/Check-In
5:40	Welcome/Announcements/Introduction to Level 1.....Cheryl Bemel
5:50	Introduction to Clinical Hypnosis.....Delle Jacobs
6:20	Hypnotic Principles and Stages I: Rapport and Attunement...Suzanne Candell
7:10	Refreshment Break
7:25	Hypnotic Principles and Stages II: Trance Elicitation and Reorienting.....Cheryl Bemel

Refined Workshop

The Discriminating Therapist: Hypnosis in Enhancing Decision-Making

Guest Faculty

Michael D. Yapko, Ph.D., is a clinical psychologist residing near San Diego, California. He is internationally recognized for his work in advancing brief, active treatments for depression and applications of clinical hypnosis in outcome-focused psychotherapies. He routinely teaches to professional audiences all over the world, having been invited to present his innovative ideas and methods to colleagues in more than 30 countries across six continents, and all over the United States.

Dr. Yapko is the author of 15 books and editor of three others, as well as numerous book chapters and articles on the subjects of the brief therapy of depression and the use of clinical hypnosis in strategic psychotherapies. His books include his classic text on hypnosis, *Trancework: An Introduction to the Practice of Clinical Hypnosis*, now in its 5th edition, as well as *The Discriminating Therapist*, *Taking Hypnosis to the Next Level*, *Depression is Contagious*, and *Treating Depression with Hypnosis*.

Dr. Yapko is a Fellow of the American Psychological Association (Div. 30), a Fellow of the American Society of Clinical Hypnosis, and a member of the International Society of Hypnosis. He is a recipient of lifetime achievement awards from the American Psychological Association's Division 30, the International Society of Hypnosis, and The Milton H. Erickson Foundation. More information about Dr. Yapko's work is available on his website: www.yapko.com.

Educational Objectives

Upon completion of this educational activity, learners should be better able to:

- Recognize cognitive style and its effect on experience in general and symptomatic experience in particular
- Identify the role of global cognitions in client problems
- Relate how a low tolerance for ambiguity increases the likelihood of poor decision-making
- Ask "how" questions that identify the client's experiential deficits (i.e., missing or incorrect information that work against his or her effective decision-making)
- Recognize how a therapist's cognitive style may hinder treatment results
- Motivate the client to make key distinctions that regulate decision-making related to his or her presenting problems
- Identify and articulate discrimination criteria that help teach discrimination strategies
- Recognize how identifying more possible solutions to the client's problem may prevent him or her from implementing them
- Design and deliver hypnosis sessions to teach discrimination strategies as they relate to more effective decision making

Thursday, June 11, 2020

6:00 pm Registration/Check In

6:55 Faculty Introductions

7:00 Small Group Seminars, select one:

1. Using Hypnosis With Couples and Families
2. Chronic Illness: An Integrative Model for Complex Conditions
3. Using Hypnosis for Restoring Our Personal and Professional Resilience

9:30 Adjourn

Friday, June 13, 2020

8:00am Continental Breakfast/Check-In

9:00 Introductions and Workshop Overview

9:15 Conventional Wisdom is Often Contradictory Michael Yapko

- Real news vs. "Fake" news, the social climate and global cognition
- Discrimination strategies in therapy – and in life
- Group hypnosis: Making discriminations with insight

10:45 Break

11:00 Group exercise: Assessing controllability

- Group exercise: Identifying discrimination issues from interviews
- The "how" question in action

12:30 Lunch

1:30 Watching it Work: A Video Demonstration: The Case of Myra

- Addressing how bad decisions make depression worse
- Deconstruction of the Session: Targets of Treatment

3:15 Break

3:30 Sequencing a hypnosis session: Designing a discrimination strategy

1:1 Exercise: Delivering a session focused on a discrimination Debriefing the exercise

4:45 Q & A; Closure

5:00 Adjourn

Saturday, June 13, 2020

7:00 am Continental Breakfast/Check In

7:30 MSCH Open Board Meeting

8:55 Announcements

9:00 Global cognitive style and problems: Implications for treatment Michael Yapko

- Types of discriminations by dimension
- Types of discriminations by diagnosis

10:30 Break

10:45 Small Group Exercise: Forming Discrimination Criteria

12:15 LunchBreak

1:15 Decision Making and Choice Architecture

- Framing effects on choice
- Group hypnosis: Enhancing decision-making

3:00 Raffle & Awards Ceremony

3:30 Break

3:45 1:1 Exercise: Hypnosis to help a colleague with a decision

4:45 Q & A, Summary and Closure

5:00 Adjourn and End

Workshops in Clinical Hypnosis
